

WALT - Add TU with exchange

$$\begin{array}{r} \text{t u} \\ 29 \\ + 16 \\ \hline \end{array}$$

$$\begin{array}{r} \text{t u} \\ 35 \\ + 46 \\ \hline \end{array}$$

$$\begin{array}{r} \text{t u} \\ 18 \\ + 37 \\ \hline \end{array}$$

$$\begin{array}{r} \text{t u} \\ 34 \\ + 28 \\ \hline \end{array}$$

$$\begin{array}{r} \text{t u} \\ 76 \\ + 18 \\ \hline \end{array}$$

$$\begin{array}{r} \text{t u} \\ 41 \\ + 19 \\ \hline \end{array}$$

$$\begin{array}{r} \text{t u} \\ 47 \\ + 35 \\ \hline \end{array}$$

$$\begin{array}{r} \text{t u} \\ 26 \\ + 66 \\ \hline \end{array}$$

Remember

1. Start with the units.
2. When the units total ten or more, exchange.
3. Show the extra ten you make.
4. Finally, total the tens, including any extra that you make.

Thinking steps

$$\begin{array}{r} \text{t u} \\ 35 \\ + 28 \\ \hline 63 \end{array}$$

1. Total the units $5 + 8 = 13$
2. $13 = 1$ ten and 3 units
3. Put 1 ten with the tens and 3 units are left.
4. Now total the tens. Remember to add in the extra ten we made.
 $3 + 2 + 1 = 6$
