

Around the Table

Imagine you are sitting around a table with 7 of your friends. Everyone is numbered 1 to 8.

The table and chairs are set out like the diagram below. See if you can use the clue cards to make sure that every member of your group is sitting in the correct place.

Around the Table

Clue
Cards

Number 2 sits opposite
Number 5.

Every odd number sits
facing an even number.

Number 1 sits opposite
a number less than 6.

Number 8 is not seated
opposite Number 5.

Number 6 sits on the
left of Number 1.
