

## Lower Level Challenge

\* Use your number line to help.

Adding  $\longrightarrow$

Subtracting  $\longleftarrow$

\* Reordering numbers can be helpful.

eg  $2 + 13 =$

Much easier to start at 13 and add on 2.

1.	1	2	+	5	=					
2.	1	1	+	4	=					
3.	7	+	6	=						
4.	3	+	1	0	=					
5.	4	+	1	2	=					
6.	5	+	1	1	=					
7.	1	2	-	3	=					
8.	1	0	-	4	=					
9.	1	6	-	2	=					
10.	1	3	-	8	=					
11.	1	7	-	2	=					
12.	1	8	-	8	=
