

Higher Level Challenge

* Use your partitioning skills.

* Look out for sums that bridge the ten.

eg $27 + 35 =$

$20 + 7 + 30 + 5 =$ (the 7 and 5 make 12,
creating another ten)

1.	4	3	+	2	4	=						
2.	2	1	+	5	1	=						
3.	3	9	+	5	0	=						
4.	7	2	+	2	4	=						
5.	5	8	+	1	6	=						
6.	4	5	+	2	8	=						
7.	7	9	-	3	1	=						
8.	8	4	-	2	3	=						
9.	5	8	-	3	4	=						
10.	9	6	-	7	5	=						
11.	7	3	-	2	7	=						
12.	8	1	-	3	3	=
