

Hi! I've been tidying my desk and I found all sorts of things.

I drew a tally chart of how many I had of each item.

1. How many pencils have I got?

2. How many paper clips have I got?

3. How many more scissors than rubbers have I got?

4. What have I most of?

5. What have I least of?

6. How could I show the tally to make it easier to count?
