

Hi! I've made a tally chart of children's favourite farm animals. Each child could choose one type of animal.

| | |
|-------|--|
| Cow |  |
| Sheep |  |
| Goat |  |
| Pig |  |

1. How many children chose sheep?
2. How many more children chose pigs than cows?
3. Which animal was the most popular?
4. Which animal was the least popular?
5. Carry out your own survey. It could be favourite pets, birds in the garden or your own choice. Make a tally chart of the results.
