

Handling Data

1 Look at the Venn diagram and then carry out the instruction below.

Put these numbers on the diagram: 11, 23, 28 and 27

2 Use the Venn diagram in Question 1 when answering these questions.

a Which numbers have two tens and are odd numbers?

b Which numbers are even numbers?

3 Which other number, not already used in Questions 1 and 2, also has two tens and is an odd number?

Write the number in the correct place on the Venn diagram in Question 1.

4 Circle the most costly item and cross out the cheapest one.

pen	ruler	rubber	pencil
2 for 40p	25p each	2 for 30p	12p each
