

An area of 1 square centimetre can be written as  $1\text{ cm}^2$ .

Each red and yellow area is  $\frac{1}{2}\text{ cm}^2$ .

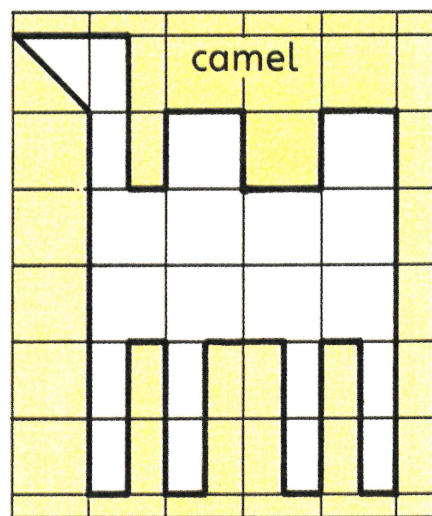

1 Tick the shapes that have an area of  $1\text{ cm}^2$ .

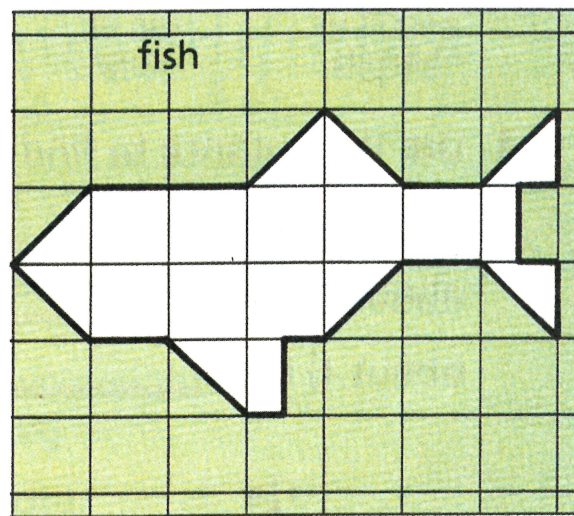

2 (a) Colour the whole squares red. Colour the half squares blue. Find the area of the picture on each card.

area =       $\text{cm}^2$

area =       $\text{cm}^2$

area =       $\text{cm}^2$

area =       $\text{cm}^2$

(b) Make your own picture

area =       $\text{cm}^2$

Ask your teacher what to do next.
