

Name _____

Date _____

Bits and pieces

1. Change these improper fractions to mixed numbers – that is, whole numbers and fractions. Draw them first if it helps you to visualise them.

$$\frac{3}{2}$$

$$\frac{5}{3}$$

$$\frac{6}{4}$$

$$\frac{17}{5}$$

$$\frac{28}{7}$$

$$\frac{16}{5}$$

$$\frac{23}{9}$$

$$\frac{25}{6}$$

$$\frac{24}{6}$$

2. Now change these mixed numbers to improper fractions.

$$7\frac{1}{2}$$

$$4\frac{1}{3}$$

$$7\frac{2}{3}$$

$$9\frac{2}{5}$$

$$11\frac{3}{4}$$

$$12\frac{1}{4}$$

$$5\frac{2}{7}$$

$$2$$

$$8$$

3. Write four equivalent improper fractions and mixed numbers of your own.
