

Name _____

Date _____

Bits and pieces

1. Change these improper fractions to mixed numbers – that is, whole numbers and fractions.
Shade the diagrams first to help you.

$$\frac{5}{4} = 1 \frac{1}{4}$$

$$\frac{4}{3} =$$

$$\frac{6}{5} =$$

$$\frac{5}{3} =$$

$$\frac{4}{2} =$$

$$\frac{6}{3} =$$

2. Now change these mixed numbers to improper fractions. Shade the diagrams first to help you.

$$1 \frac{1}{2} = \frac{3}{2}$$

$$1 \frac{1}{4} =$$

$$1 \frac{1}{5} =$$

$$1 \frac{2}{3} =$$

$$1 \frac{3}{4} =$$

$$2 \frac{1}{2} =$$
