

1Mental
addition and
subtraction

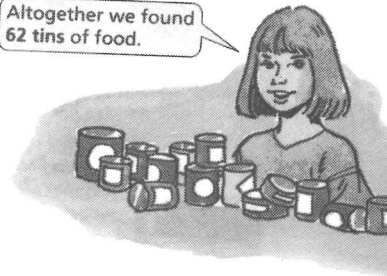

Washed ashore

Sean and Dorothy find 34 tins of food.
Roy and Elaine find 28 tins.

$$\begin{array}{r} 34 \text{ add } 28 \\ 34 + 20 = 54 \\ 54 + 8 = 62 \end{array}$$

Altogether we found
62 tins of food.

**1 Add mentally.**

$25 + 16 = \underline{41}$

$29 + 23 = \underline{52}$

$26 + 17 = \underline{43}$

$38 + 46 = \underline{84}$

$47 + 17 = \underline{64}$

$33 + 28 = \underline{61}$

$18 + 57 = \underline{75}$

$25 + 37 = \underline{62}$

$24 + 48 = \underline{72}$

$54 + 37 = \underline{91}$

$27 + 46 = \underline{73}$

$48 + 29 = \underline{77}$

$38 + 38 = \underline{76}$

$45 + 35 = \underline{80}$

$61 + 29 = \underline{90}$

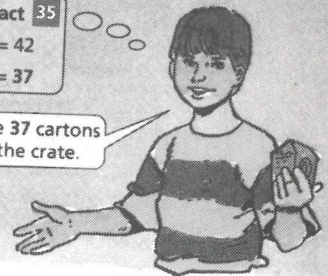

$59 + 27 = \underline{86}$

Sean finds a crate of orange juice.
He takes out 35 cartons which are empty.

$$\begin{array}{r} 72 \text{ subtract } 35 \\ 72 - 30 = 42 \\ 42 - 5 = 37 \end{array}$$

There are 37 cartons
left in the crate.

**2 Subtract mentally.**

$42 - 27 = \underline{15}$

$66 - 38 = \underline{28}$

$75 - 46 = \underline{29}$

$66 - 57 = \underline{9}$

$53 - 25 = \underline{28}$

$81 - 34 = \underline{47}$

$34 - 15 = \underline{19}$

$77 - 29 = \underline{48}$

$47 - 28 = \underline{19}$

$78 - 49 = \underline{29}$

$91 - 66 = \underline{25}$

$93 - 77 = \underline{16}$

$60 - 32 = \underline{28}$

$84 - 48 = \underline{36}$

$82 - 53 = \underline{29}$

$96 - 76 = \underline{20}$

$80 - 17 = \underline{63}$
