

## Time word problems 3<sup>rd</sup> March 2021

Read each question carefully and decide how you will work out the answer. Do your working out in the space provided and, once you've finished, do the **inverse calculation** to check your work. Don't forget that there are 60 minutes in one hour!

Problem	Working out	Inverse calculation
1. It takes 15 minutes to read one chapter of my book. If I have read 7 chapters, how long has it taken me?		
2. Tom left his house at 7.45am and arrived at work 50 minutes later. At what time did he arrive at work?		
3. Dad walked our dog for 35 minutes in the morning and 1hr 10mins in the evening. How much longer was the evening walk?		
4. Buses to Belfast leave the station every 15 minutes. If the first bus leaves at 06.10, at what time does the fourth bus leave?		
5. My sister's dance lesson on Saturday lasted for 1hr 40mins. It finished at 3.10pm. At what time did the lesson begin?		
6. Our football training began at 09.30. We did skills training for 45mins, took a 10min rest and then did a fitness test which lasted 30mins. At what time did we finish?
