

Spicy Angles Recap

Section 1- write the definitions into your maths classwork book.

1. An acute angle is Less than 90°
2. An right angle is Always 90°
3. An obtuse angle is Between 90° and 180°
4. A reflex angle is More than 180° but less than 360°
5. Write the names and definitions of the four different types of triangles.

- Isosceles \rightarrow 2 sides/angles that are equal
- Equilateral \rightarrow All sides/angles are equal
- Scalene \rightarrow Sides/angles are all different
- Right-Angled \rightarrow Has one angle that is 90°

Section 2- match the quadrilaterals to the correct name. Write answers in your book. (You don't need to redraw the shapes)

1. Rectangle

2. Kite

3. Isosceles Trapezium

Rhombus

Parallelogram

Trapezium

Section 3- work out the value of each angle marked with a '?'. Write answers in your book. (You don't need to redraw the shapes)

Find the value of each angle marked with a "?"
